WAZIUP project

- Open Innovation Platform for IoT-Big Data in Sub-Saharan Africa
- **2016-2019**
- **Partners:** LIUPPA, CREATE-NET, EGM, IT21, UI, UGB, CTIC, C4A, PUB, iSpace, Farmerline, Woelab.

HIT2GAP project

- Highly Innovative building control Tools Tackling the energy performance GAP
- **2015-2019**
- **Partners:** EURECAT, IK4-Tekniker, Fraunhofer ISE, Building Research Establishment, Bouygues Energies & Services, Giroa, Mostostal, CYLON CONTROLS, R2M, Abo Data, Apintech, CyRIC, Zutec, Enerit, Evolution, City of Warsaw, University of Pau and the Adour region (LIUPPA), University of Girona, University of Galway, University of Strathclyde, Ege University, NOBATEK.

Projects completed

FEDER/POCTEFA PIREGRIG project

- **2009-2012**
- **Led by:** CongDuc Pham.
- **Partners:** the BIFI of the University of Saragossa, the Technology Institute of Aragon (ITA) and the IT research institute of Toulouse.
- **Funding:** €74,131.

The project consists in creating a fully-functional grid computing platform for the regions of Aragon, Navarre, Aquitaine and Midi-Pyrénées capitalizing on the cutting-edge knowledge of the technical partners involved. Another of its aims is to complete communication studies, offers of use and public and private economic studies.

MOVIES team

MegaM @ Rt2 project (2017-2020): MegaModelling at Runtime - Scalable model-based framework for continuous development and runtime validation of complex systems

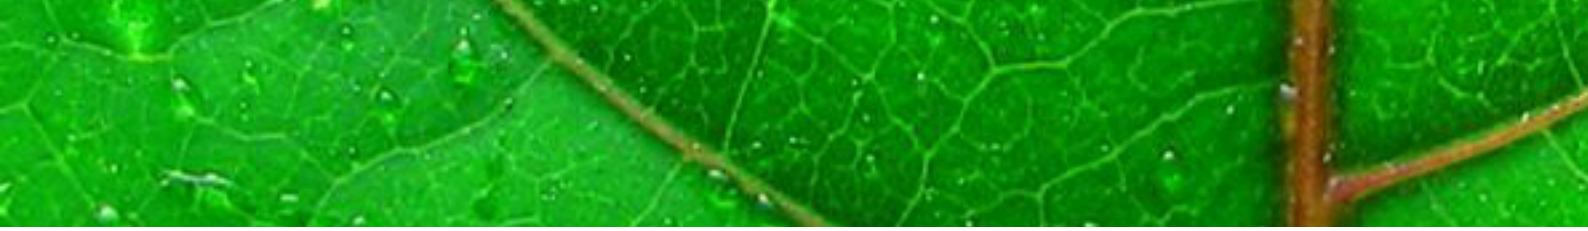

Aquitaine-Aragon (2015-2017), YACA: open-sourcing of the multilingual processing chain for the detection, disambiguation and geolocation of POI

ReMICS project: Reuse and Migration of legacy applications to Interoperable Cloud Services

- **Sept. 2010 - Aug. 2013**
- Managed by Franck Barbier.
- 10 partners.
- **Total budget of the project:** €4.5 M.

SFHEAT project: a Sustainable Framework for Higher Education in Aeronautical Technologies

- **Oct. 2010 - Oct. 2012**

- Managed by Eric Gouardères.
- **Partner:** Balamand University, Lebanon.
- **Funding:** €34,000.

The objective of this project is to develop a training course in aeronautical maintenance in Lebanon. The MOVIES team is contributing to optimizing an e-learning platform by integrating synchronous communication tools (chat rooms, video-conference) and a tool for monitoring the students developed in the laboratory (e-folio).
